

What is Foster Care?

Foster care is temporary care for children who cannot live with their families because of safety concerns. Children in foster care may live with relatives, like kin, or with unrelated foster parents. Public, private, and tribal child welfare agencies license foster families and manage the safety and well-being of the children placed in foster care. The primary goal of foster care is reunification.

WHO ARE THE KIDS IN FOSTER CARE?

Children in Wisconsin's foster care system are between the ages of 0 and 18. Most often the children in need of homes are not babies or toddlers; they are teenagers, sibling groups, or children with varying mental, behavioral, emotional, or physical health needs.

Some children have been significantly impacted by traumatic experiences and very much need stability and attention.

WHY ARE FOSTER PARENTS NEEDED IN WISCONSIN?

It can be difficult to think about, but every day, there are children who have to be removed from their family homes because of abuse, neglect, and abandonment. Right now there are more than 6,000 children in foster care across Wisconsin.

IS IT HARD TO BECOME A FOSTER PARENT?

No, but it will take a little time. First you need to contact a licensing agency (county, private, or tribal). The licensing professional will need to get to know you better through interviews and paper work that you fill out. You will also be required to attend training. For more about the agencies that license parents, visit: **WiFamilyConnectionsCenter.org** or **dcf.wisconsin.gov** OR call **1-800-762-8063**.

WHAT KIND OF SUPPORT IS AVAILABLE FOR FOSTER PARENTS?

As a foster parent, you will have a social worker available to offer support throughout your journey. You will receive monthly payments to help cover the costs of food, clothing, personal care, and any special assistance a child in your care may need. There may be other supports or services available, such as assistance with day care costs or respite services. The licensing professional can tell you more.
